Bartender's Notes

NB: shot sizes vary internationally, so we will use ounces and milliliters.
In the U.S., a shot equals 1.5 ounces.

This recipe makes one serving.

Directions

Put ice cream in a nice large glass and drizzle it with whiskey and chocolate syrup.

In another glass or measuring cup, mix rum and Coke, and gently pour over your ice cream, allowing it to fizz and rise to the top.

Enjoy with a straw and a spoon.
